The Severn Trent
Education Programme

SEVERN

TRENT

How much do you know about where water comes from? About how we capture, store, treat and handle it? Or about what happens when you flush?

We've created a completely free programme of exciting, entertaining and educational events to help to explore the fascinating world of water. There's a wide range of talks, workshops and activities to choose from that are suitable for all ages and a range of groups.

Activities

Schools outreach sessions

The basic outreach session includes a whole school assembly, class workshops and helping you to run an eco council session.

Talks & presentations

We're more than happy to come and talk to everyone from community groups to employee teams and social organisations.

Site visits

At our Education Centres in Cheltenham and Derby, we offer the opportunity to visit a sewage treatment works for a pre-booked, half-day tour. We do require a minimum of 15 participants.

Free online resources and activities

- School Assembly activities.
- Sewage soup.
- Make a water product.
- Dot to dot worksheets.
- Secondary water reporters.
- Girl guide activities.
